- Technical support** is a paid service for the TechIS product. Technical support can be used for consultations, installation of the TechIS system, configuration of the TechIS system, integration of TechIS with other enterprise systems, creation of customized analytical, printing, and reporting templates, configuration of the notification system, user training, etc. (1 day = 8 hours on working days from 08:00 to 16:00).
- Subscription** is a paid service for the TechIS product provided in the form of an annual subscription. The service ensures:
  - access to new versions of the TechIS product,
  - access to current technical and user documentation,
  - access to bonus materials and services (e.g., TechIS Partner Program),
  - access to support for resolving technical issues,
  - discounts on additional services (training, proposals for new solutions, custom development).
- The **TechIS HelpDesk licence** entitles TechIS users with a valid **STANDARD, ENTERPRISE, ADVANCED** or **ULTIMATE** license to use the TechIS product extension, the TechIS Helpdesk web portal (<https://techis.eu/helpdesk/>).
- The **InfoPanels package** contains a permanent license of the **InfoPanels** information system for 1 information display, installation and configuration of the system and creation of 1 graphic presentation according to the requirements of the TechIS system user.
- The **Analysis** is a paid service for the TechIS **ENTERPRISE / ULTIMATE**, product that precisely determines the scope and requirements for the implementation of the TechIS system, mapping or proposing optimal enterprise maintenance processes.
- The **TechIS Product Partner Program** cannot be obtained without a valid TechIS Subscription.
